About TALIS 2024

The fourth Teaching and Learning International Survey (TALIS 2024) is an international survey that offers the opportunity for teachers and principals to provide input into education analysis and policy development. TALIS is being conducted by the Organisation for Economic Co-operation and Development (OECD). [Name of country], along with more than 50 other countries, is taking part in the survey.

International comparisons from TALIS will allow participants to identify common challenges and to learn from other policy approaches. Principals and teachers will provide information about teaching and learning issues such as their education and professional learning, professional and pedagogical practices, occupational perceptions, as well as contemporary issues for education systems such as diversity and equity, social and emotional learning of students, and educational uses of technology.

In the TALIS study, it is our intention to draw a picture of the different educational practices in all the participating countries. Countries and individuals may differ in their educational approaches. We rely on your expertise to describe your work and opinions as accurately as possible.

Being an international survey, it is possible that some questions do not fit very well within your national context. In these cases, please answer as best as you can.

About the TALIS 2024 Teacher Knowledge Survey

Thank you for agreeing to participate in the TALIS 2024 Teacher Knowledge Survey (TKS). Your answers to the questions in this survey will provide valuable information about what teachers in different countries know about general pedagogy. This survey is not an assessment of individual teachers and their knowledge.

The TKS should take approximately 45 minutes to complete and comprises two sections:

- Section 1: Context questions (approx. 20 minutes)
- Section 2: General pedagogical knowledge questions (approx. 25 minutes)

The estimate of 45 minutes is offered as a guidance and as an indication for you to better manage your time. Please try to complete the survey in one sitting. There is no need for you to rush through the survey, nor to spend too much time on it: just work through the survey at a pace you are comfortable with, and avoid breaks or interruptions to the extent possible. If you need or want to take a break, please try to do so between the two sections; it is especially important to us that you try to complete Section 2 in one single sitting.

Please be aware that the survey will close 24 hours after you first logged in, and all responses you have entered will be submitted. You will not be able to resume the survey after it closes.

Confidentiality

All information that is collected in this study will be treated confidentially. While results will be made available by country and, for example, by the type of school within a country, you are guaranteed that neither you, this school, nor any school personnel will be identified in any report of the results of the study. [Participation in this survey is voluntary and any individual may withdraw at any time.]

Thank you very much for your participation.

Context Section

This section of the TKS contains a set of questions about:

- *your background and qualifications*
- *your teacher training and work experience as a teacher*
- *your opportunities to learn about pedagogy*
- *your perceptions, beliefs and motivations with regard to teaching and*
- *your teaching practices and your collaboration with colleagues.*

This section should take approximately 20 minutes to complete. Please click "Next page" to begin the first question.

Background and Qualification

These questions are about you, your education and the time you have spent in teaching. In responding to the questions, please mark the appropriate choice(s) or provide figures where necessary.

1. What is your gender?

Please mark one choice.

☐ 1 Female

☐ 2 Male

☐ 3 <country-specific>

3. What is the highest level of formal education you have completed?

Please mark one choice.

- ☐ 1 Below <ISCED 2011 Level 3>
- ☐ 2 <ISCED 2011 Level 3>
- ☐ 3 <ISCED 2011 Level 4>
- ☐ 4 <ISCED 2011 Level 5>

- ☐ 6 <ISCED 2011 Level 7>
- ☐ 7 <ISCED 2011 Level 8>

TKS_03

4. What type of education did you complete for your first teaching qualification?

A '<regular teacher education or training programme>' requires future teachers to complete post-secondary education leading to a teaching credential, typically at a university with a focus on subject-matter, pedagogy and practice either concurrently or consecutively.

A <fast-track/shorter or specialised teacher education or training programme> refers to pathways into a teaching job that are not <regular teacher education or training programmes> in terms of duration and/or content designed for specific groups (e.g. second-career candidates, candidates with some teaching experience, or candidates with high levels of subject knowledge).

Please mark one choice.

- ☐ 1 A <regular teacher education or training programme>
- ☐ 2 A <fast-track/shorter or specialised teacher education or training programme>
- ☐ 3 Subject-specific <education or training> only
- ☐ 4 I have another formal qualification not listed above.
- ☐ 5 I have no formal qualification related to the subject I am teaching or to any type of pedagogical education. → **Please go to Question [6].**

6. Was teaching your first choice as a career?

A 'career' is having a paid job that you regarded as likely to form your life's work.

Please mark one choice.

☐ 1 Yes

☐ 2 No

7. How many years of work experience do you have, regardless of whether you worked full-time or part-time?

Do not include any extended periods of leave such as parental leave.

Please write a number in each row. Write 0 (zero) if none.

Please round up to whole years, e.g. if this is your first year teaching, enter "1".

Opportunities to Learn

The next set of questions concerns your opportunities to learn about topics related to pedagogy during any of your studies, whether during your formal teacher <education or training> or through subsequent professional learning courses or activities.

In this section, 'professional learning' is defined as activities that aim to develop an individual's skills, knowledge, expertise and other characteristics as a teacher.

Examples of each topic are listed in brackets. These examples are indicative only.

Mark the choices that best reflect your experience.

11. To what extent has your formal teacher <education and training> or subsequent professional learning prepared you in the following topics related to classroom instruction?

Teaching in the <Target Class>

In the following, we want to get into more detail about your teaching practices. Within this questionnaire, we cannot cover the whole scope of your teaching. Therefore, we use an exemplary approach and focus on the teaching of one <class>.

The following questions ask you about a particular <class> that you teach. The <class> that we would like you to respond to is the first <ISCED 2011 Level x> <class> that you taught in this school after 11 a.m. last Tuesday. Please note that if you do not teach a <class> at <ISCED 2011 Level x> on Tuesday, this can be a class taught on a day following the last Tuesday.

In the questions below, this <class> will be referred to as the <target class>.

20. How many students are currently enrolled in this <target class>?

Please write a number.

21. We would like to understand the composition of the <target class>. Please estimate the broad percentage of students who have the following characteristics.

This question asks about your personal perception of student background. It is acceptable to base your replies on rough estimates.

Students may fall into multiple categories.

<'Students with special education needs' are those for whom a special education need has been formally identified because they are mentally, physically, or emotionally disadvantaged. Often they will be those for whom additional public or private resources (personnel, material or financial) have been provided to support their education.>

<'Socioeconomically disadvantaged homes' refers to homes lacking the basic necessities of life, such as adequate housing, nutrition or medical care.>

An 'immigrant student' is one who was born outside the country. A 'student with migrant background' has parents who were both born outside the country.

'Refugees' are those who, regardless of legal status, fled to another country seeking refuge from war, political oppression, religious persecution, or a natural disaster.

General Pedagogical Knowledge Questions

In this section of the survey, you will be asked 39 questions related to the three main areas of general pedagogical knowledge: classroom instruction, student learning and assessment practices.

Each question is in one of two formats:

- *Simple multiple choice: For these questions, please read the question and select one of the four options provided.*
- *Complex multiple choice: For these questions, please read the question and select one response option for each part.*

Please note that in this section, you are not being personally assessed. Rather, the responses you provide will help us to learn what teachers in different countries know about pedagogy. This information will be useful to the development of teaching policy and practice in your country and improving formal teacher <education or training> programs. Please answer all questions as best as you can. Do not be concerned if you are unsure of the answers.

This section should take you about 25 minutes to complete. However, you can take longer if needed to complete it at your own pace without rushing through it. It is recommended that you complete this section in one sitting, so if you need to take a break, please do it now before clicking "Next" to begin. A reminder that the survey will close 24 hours after you first logged in: you will not be able to resume the survey after it closes.

This material has been redacted.

This is the end of the survey.

Thank you very much for your participation!
